

KIND Name _____

Helping the Little Guys

Directions: Do you think you can help only big animals? The little guys need our help too. Match each insect or

other animal below with what it might tell you if it could.

1. _____ A worm on a sunny sidewalk
2. _____ A sowbug under the rock you just picked up
3. _____ A spider in your house
4. _____ A bee crawling on the ground
5. _____ A cricket chirping in the grass
6. _____ An ant that you've kept in a bug box to watch for a few minutes
7. _____ A luna moth that your friend wants to kill for a bug collection

- A. Put a drop of honey near me and watch me refuel myself.
- B. Put back my rock. I was here first!
- C. Let me go where you found me. I have work to do in my colony.
- D. Don't put me in a cage. Leave me outside to sing all summer long.
- E. Put me outside using the glass-and-cardboard method
- F. Learn how to photograph me and help your friend collect pictures instead of dead bugs.
- G. Put me back in the cool grass so I don't shrivel up and die!

BONUS QUESTION: Can you guess which two animals named above are not insects? Who are they?
